

Making with Your Phone: Teaching the Internet of Things to Novices

Presented by: Devin Jean and Akos Ledeczi

Workshop Schedule:

1. Introduce the ideas behind PhoneIoT and NetsBlox. Install the phone app (20 minutes).
2. Build a simple compass app project (20 minutes).
3. Build an accelerometer plotting project (30 minutes).
4. Build a touchscreen drawing project (20 minutes).
5. Demonstrate the same projects using PyBlox in Python (10 minutes).
